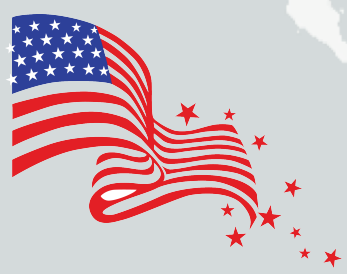
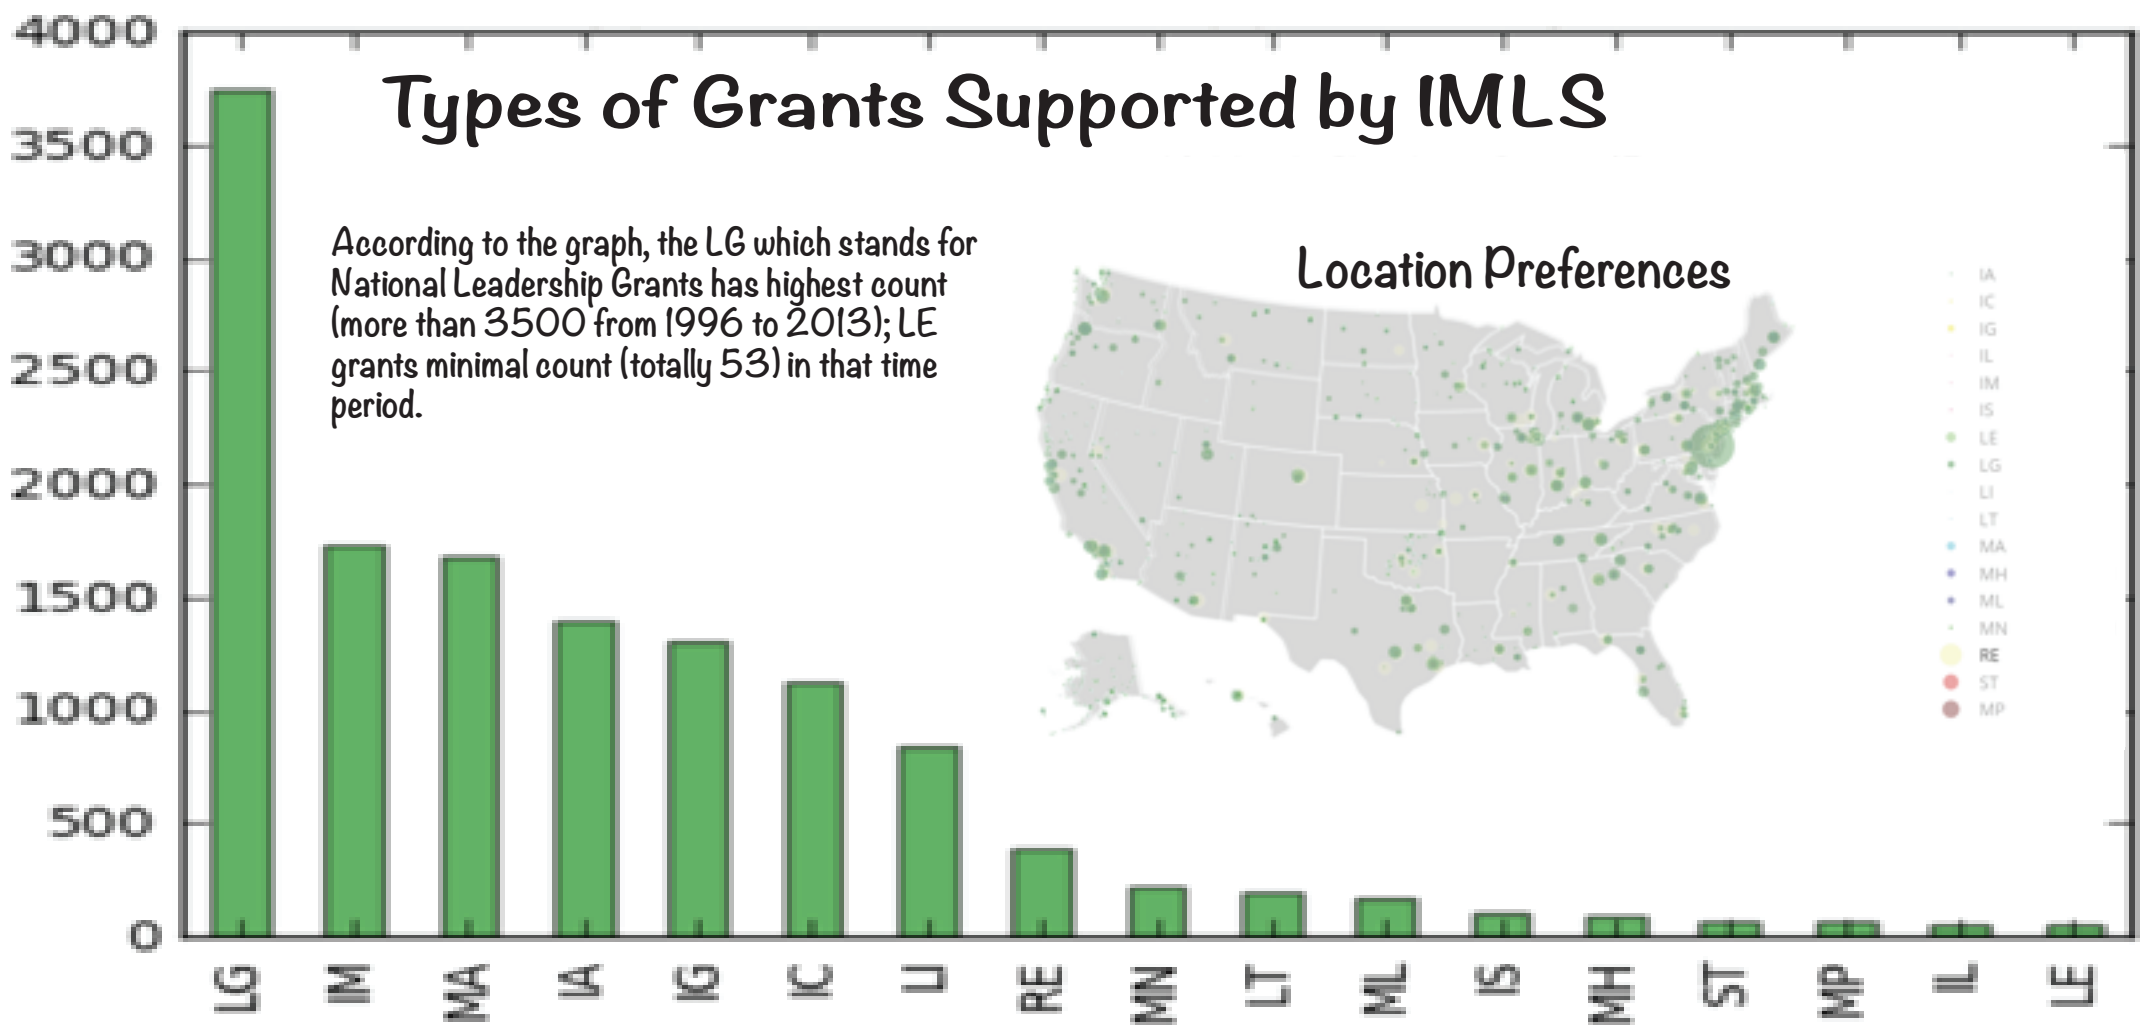
GRANTS DISTRIBUTION OF



In the mainland of US, we see the grants dstributed over this area, especially east-cost and west-cost.
Based on the count of grants:
1. New York, Washington DC, California, States around the Great Lakes, Texas and Florida. Others grants are almost evenly distributed in the middle area.
2. The middle west area has fewest grants.
Based on the amount of grants:
1. New York and Washington have highest funding (organization in these area are more likely get high funding on single grant)
2. The funding amount on other areas is almost evenly distributed.



According to the graph, the LG which stands for National Leadership Grants has highest count (more than 3500 from 1996 to 2013); LE grants minimal count (totally 53) in that time period.
